

Double Diaphragm Pump, Diesel

Vikoma 12K Power Pack

Application

Both the Vikoma 12K and Lamor 12 powerpacks also drive Spate double diaphragm pumps. These pumps will move low to moderately high viscosity fluids. They tolerate small particulate debris and do not tend to emulsify petroleum-water mixtures.

Equipment Information

Weight (lbs)	550/ 286
Fittings, size	3"
Fittings, type	Camlock
Capacity (bbl/hr)	147/ 200

Operational Parameters

Number of Operators
2 to deploy, 1 to monitor

Fuel type
Diesel

Ancillary Equipment

Containment
Hose kit

Additional Information

Chadux also operates several single diaphragm pumps powered by Yanmar diesel engines. They have a capacity of 142 bbls per hour.
