

Aquaguard Triton RBS 35 Drum Skimmer

Application

A powered, brush/drum/disc type skimmer for use on light to high viscosity oils. The rotating insert (brush, drum or disc) lifts oil from water where it is pumped to storage. Highly efficient- minimizes recovery of water.

Brush can be interchanged with either drums or discs (*without the use of tools*) for various oil types.

Deploy in protected waters.

Equipment Information

Weight (lbs)	175 (with pump)
L/W/H (in)	35.5/40/18.5
EDRC (bbls)	1142
Draft (in)	6

Operational Parameters

Oil Types

Diesel fuels, lightly weathered crude, lube oil, hydraulic oil to highly weathered crude, Bunker C

Number of Operators

2 to deploy, 1 to operate

Discharge

3" camlock

Ancillary Equipment

Pump

Hydraulic powerpack
Storage (bladder or tank)

Discharge/ suction hoses

Chadux ships the Triton 35 with a powerpack and centrifugal pump.

Additional Information

Diesel powerpack (L: 44" / W: 24" / H: 40")
350 lbs

Brush – Heavy and Medium Viscosity Oils –
OIL/WATER EFFICIENCY
96%

Disc – Light and Medium Viscosity Oils –
OIL/WATER EFFICIENCY
98%

Drum - Light and Medium Viscosity Oils–
OIL/WATER EFFICIENCY
98%
